Sammy Module

The intelligent AI search solution from savotex provides you with relevant answers based on your datasources in a matter of seconds.

Sammy from savotex searches your company's various data sources and provides you with the right answers quickly and accurately.

Our hybrid search combines the speed of traditional search engines with the intelligence of modern AI technologies.

Thanks to the intelligent context search, you can ask your questions as you would in everyday life and receive precise, AI-generated answers with source references.

Whether structured data or unstructured content – Sammy provides you with exactly the results you need.

Interested? For more information, please contact us!

Benefits

- **Fast and precise results:**
  Find exactly the information you need in seconds, whether from structured datasuch as tables or unstructured content such as documents.

- **Intelligent context search:**
  Formulate your questions as you would in everyday life – Sammy understands the context and provides precise answers with source references.

- **Hybrid search:**
  Benefit from the perfect combination of the speed of conventional search engines and the intelligence of modern AI to get the best results fast and reliably.

- **Automatic synchronization:**
  Your content is continuously indexed and updated so you always have access to the latest and most relevant information.
