DataSheet Modul

Make the right decisions based on revolutionary data visualization. Intuitive and simple with the new DataSheet module for censhare.

With the extensive functions of the DataSheet module, you can efficiently display, sort and filter large amounts of data – all with just a few clicks. This makes it easy for you to analyze market opportunities, customer needs or risks.

The best thing is that you don't need any technical knowledge to prepare your data. Use intuitive filter and sorting options, groupings, attribute mapping options and the option to aggregate values. Easily export the results to Excel to optimize your workflows.

No more guesswork - analyzing and visualizing data directly from censhare has never been easier!

Benefits

- Intuitive preparation and presentation of large and complex amounts of data directly in censhare.

- Extensive functions for filtering, sorting, grouping, mapping or aggregating data.

- Convenient analysis of market opportunities, customer needs or risks.

- Settings and adjustments can be saved and conveniently exported to Excel.

- Protection of data through the integration of the existing Keycloak authentication.
